

A vibrant, low-angle photograph of a yellow and pink cosmos flower. A bee is perched on the center of the flower, its wings spread. The flower's petals are a mix of bright yellow and soft pink. Surrounding the main flower are other colorful blooms in shades of red, orange, and pink, along with green foliage. The background is a clear, bright blue sky. The entire image is framed within a white, irregular shape that resembles a stylized letter 'A' or a decorative cutout.
